

Trillium at Cave Creek

Trillium at Cave Creek is nestled against 15 acres of foothills in northern Phoenix, Arizona. This three-story residential complex offers panoramic views of the city lights, desert views and the luxury pool. The private patios and spacious walk-in closets are all apart of each of these oversized floor plans. The open-air kitchen, wine-cellar, on-site dry cleaning, and Trillium Cinema center are all unique to this complex and make a nice community for the residents to enjoy. The complex features a fitness center with a full yoga/pilates studio attached. The pool, spa and stainless-steel barbecues make the perfect setting for outdoor activities.
