Allaso High Desert

Allaso High Desert is a multifamily community located at the base of the foothills of the Sandia Mountain in Albuquerque, New Mexico. With a total of 281-units, including 204 "flat" apartments and 77 townhome style units, this project will give its residence access to the foothills trail system which connects to trails east, south, and north spanning the entire Sandia Mountains. Amenities will include a resort style pool and spa, state of the art fitness center with a spin studio, indoor driving range, outdoor kitchen, game lawns, fire pits, shaded areas, ramadas, outdoor fitness area, and a putting lawn.
